Hello Team LBK,

I hope this message is helpful. Please don't hesitate to call me if you have any questions. Thank you for all your assistance in trying to improve things for us in the near future.

1. How deep was the water in your house?
a. The main house dwelling is located on the second floor so there are no issues here.
2. How deep was it in your garage?
a. NO entry to the garage for this storm (although the wake from a driver passing did make the water come into the garage)
3. How long was water over the road in front of your driveway?
a. 2 ½ Days
4. If you used sandbags or a flood barrier, and water did not enter the house, how high was the water above the level of your floors?
a. N/A
5. If water did not enter the house or garage, how close did it get, and how deep was it in the yard at the deepest point?
a. Within 5 inches/side yard was over 1 ½ ft
